# RACING FORCE GROUP

## The Group

Racing Force is the leading Group in the Motorsport Safety Product Industry with the most advanced and complete range of protection & performance products used worldwide by top professionals, amateur athletes, racing teams and car manufacturers from Formula 1® to World Rally Championship®, Sportscar racing, Stockcar, Rally-raid and Karting. In the last ten years Racing Force Group won more than 60 FIA World Championship titles along with IndyCar®, NASCAR® and Supercars® Championships. In order to gain international visibility and boosting its development plans, Racing Force is now a dual listed company: since November 2021 is listed on the Euronext Growth Milan market (RFG), and since September 2022 it entered also into the Euronext Growth Paris market (ALRFG). Racing Force Group (RFG) lies in the breadth of our iconic brand portfolio, our people, our vendors and our customers. The Group's core moral principles and work ethics include values such as integrity, respect, dedication, determination, diversity, sound judgment, dependability, accountability, teamwork, loyalty, quality and safety. We obtain success through a positive mental attitude, optimism, vision, courage, proactiveness and passion: this is our strength.

# SAFETY & QUALITY FOR FIA

SIDE BY SIDE SINCE 2012

## FIA Motorsport

For over a decade Racing Force Group and FIA have been committed side by side on roads and racetracks to guarantee the protection of the people of racing. This story began in 2012 with the first agreement between OMP and the motorsport's world governing body, and it developed into something even bigger as Bell Racing Helmets became involved as well in the partnership.

## FIA Motorsport

Technical racing clothing for FIA officials and safety car drivers across a range of FIA world championships (from F1 down) comes exclusively from Racing Force Group: OMP fire retardant suits, shoes, gloves and underwear, and Bell helmets.

## FIA Karting Academy

Moreover, since 2017 OMP brand has the honor to supply technical racewear to the young contestants FIA Karting Academy Trophy, the forge of tomorrow's motorsport champions.

ALONGSIDE WORLD CHAMPIONS SINCE 1973

OMP turned 50.  
In October 1973, in a suburb of Genoa, Italy, the company was founded to improve safety in auto racing.  
Since then, OMP has been growing bigger, stronger, a well-known brand around the world.  
Today OMP is one of the pillars of Racing Force Group.  
During all these years, OMP worked alongside legendary drivers, teams and manufacturers in the most important categories, providing protection and performance, becoming an icon of the modern motorsport era.  
In its first 50 years, OMP has always wanted to innovate and push the boundaries of what was possible in motorsports safety, setting new benchmarks and contributing to numerous world titles and countless victories.  
Now we are ready to begin our second half-century.

**1973**

OMP history begins with a Fiat 500 rollbar. Since then, OMP gets noticed more and more, becoming official car parts supplier for many Italian teams and manufacturers.

**1996**

Michael Schumacher kicks off his Ferrari era by choosing OMP overalls and gloves. It's the start of an historic collaboration, sharing 71 wins and five F1 world titles.

**2013**

Volkswagen Motorsport opens a four-year WRC domination with Sebastien Ogier and OMP. It's the first of many world titles for the HTE seat.

**2021**

OMP and Bell Racing Helmets converge into the new Racing Force Group, along the emerging startups of Zeronoise and Racing Spirit.

**1982**

OMP diversifies its production, entering the racewear market. The company soon supplies its first Formula 1 driver, Mauro Baldi of Arrows team.

**1999**

OMP ends in style the 20th century, celebrating the fourth consecutive World Rally Championship title along with the Mitsubishi Ralliart team and Tommi Mäkinen.

**2013**

OMP provides the drivers' overalls for award-winning "Rush" movie directed by Ron Howard, reproducing in detail the 1976 F1 season overalls.

**2022**

MotoGP legend Valentino Rossi begins his full-time car racing career, using OMP racewear and Bell Racing helmets through a multi-year partnership.

**1986**

OMP is the world's first company to obtain the new FIA ISO 86 homologation standards for fireproof racing suits.

**2008**

In February the control of OMP is acquired by SAYE S.P.A. Group, held by Delprato brothers from Genova.

**2016**

Teaming up with OTK Group, and creating a new range of products, OMP marks a revolution into the karting industry.

**2022**

OMP supplies Toyota Gazoo Racing WRT for the third WRC title in five years, while Kalle Rovanpera becomes youngest ever WRC champion.

**1989**

Gerhard Berger survives the flames of his Ferrari, after the crash during the F1 race at Imola. Credit goes to fireproof overalls and gloves made by OMP. Millions of people see those moments on live TV, and the company becomes popular all over the world.

**2010**

OMP returns to Formula 1, signing an agreement with Renault F1 Team to supply the first safety belts designed and built entirely by its R&D department.

**2017**

OMP presents "One Art", the first totally customized fire retardant suit. The "Print Art" technology guarantees complete control of the design process.

**2023**

OMP becomes official partner of the 24 Hours of Le Mans and the FIA WEC, supplying safety gear for marshals, safety-car drivers, doctors, and all the on-track personnel.

**1990**

OMP supplies F1 star Ayrton Senna. The partnership will last until the death of the legendary Brazilian driver, with 20 race victories and two world F1 titles scored together.

**2012**

OMP conquers the US celebrating its maiden IndyCar Series title with Andretti Autosport driver Ryan Hunter-Reay.

**2017**

OMP harnesses are chosen by Mercedes AMG Petronas Motorsport Team, which extends its Formula 1 Manufacturers' World Championships streak till the 2021 season.

**2023**

Envision Racing wins an historic FIA Formula E Teams' World Championship using the OMP racewear for its drivers.

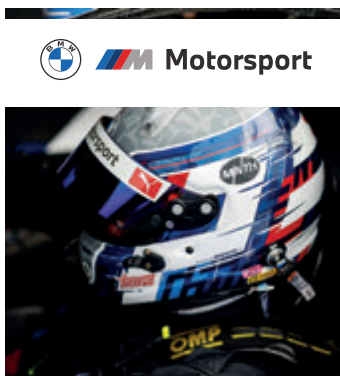

**2019**

OMP acquires Bell Racing Helmets, giving birth to the biggest worldwide player in motorsport safety equipment.

**TOP LEVEL SUIT**

Fireproof top level overall. Developed for the highest lightness without sacrificing the comfort. Made of shiny Nomex fabrics. Regular fit with antirubbing seams.

**SIZES 46-64**

sizing information on page 203

OMP's Dry System help drivers to reduce body temperature and improve their performance. The cooling effect of the inserts is improved when worn with the OMP ONE breathable underwear combined with cooling spray solution. OMP's Dry System is a registered utility model.

More comfort, less heat: a goal that OMP pursues since always, and now concretizes with STRETCH DRY SYSTEM. The maximum breathability of OMP Dry System is combined with the elasticity of 3D materials, to allow the best freedom in movements while reducing body temperature. Two fundamental elements to help drivers improve their performance.

### FULL FACE HELMET

Lightweight shell, high ventilation thanks to four air intakes on chin and eight vents on top. The standard sized eyeport allows to use the helmet with both classic shields and touring sun peak (sold separately - SCO-0179) and makes the helmet suitable for several motorsports disciplines, from formula cars to GT cars. Soft inner comfortable fabrics allows best fitting comfort; double ring closure. Hans posts fitted.

### SIZES

# ZN

ZERONOISE

Zeronoise features the most advanced communication systems in WRC. With its adaptive sound technology ZN is able to deal with any car, surface and driver's preference. This technology translates into a full product range of intercoms and full integration with Bell and OMP helmets.

The integration of ZN with OMP and Bell, delivers top performances thanks to the combined effort of the R&D departments. This approach led to breakthrough innovations such as the one today known as the Driver's Eye, the smallest camera in the world for live TV broadcasting, FIA homologated, that brings the driver's POV to the audience.

# RALLY COMMUNICATION SYSTEM

The Rally communication systems enable communication between driver and co-driver with extensive power and noise canceling. It also allows radio connection, Bluetooth connection, as well as car camera.

Typical configuration:  
male 4 pin nexus connector on amplifier, female 4 pin nexus connector on helmet or headset.

# CIRCUIT COMMUNICATION SYSTEM

Communicate between the car and the pit with a standard phone call, through a professional intercom system connected via bluetooth to the smartphone. PIT LINK allows you to connect up to two people in the car, as well as more cars and more people at the pit by using the conference call feature of the smartphone.

Typical configuration:  
female 4 pin nexus connector on amplifier, male 4 pin nexus connector on helmet or headset.

H. PADDON - BRC RACING TEAM

TOYOTA RACING DEVELOPMENT GR86 CUP

# WIRED MODE COMMUNICATION SYSTEM

The Wired-Wireless (WW) System enables communication between driver and co-driver both in Wired and Wireless mode. When the helmet IS connected to the amplifier via cable, the communication works traditionally, also keeping compatibility with any Nexus communication system.

Typical configuration:

male 4 pin nexus connector on amplifier, female 4 pin nexus connector on helmet or headset..

**COMPONENTS:**

**WW Zeronoise Amplifier** (see page 96)

**WW Bell Helmet radio kits / Helmet radio kits produced by other manufacturers** (see page 108-109)

**WW Zeronoise Headsets / Headsets produced by other manufacturers** (see page 97)

**Extensions and adaptors** (if needed for different connector systems, e.g. components produced by other manufacturers).

# WIRELESS MODE COMMUNICATION SYSTEM

When the helmet IS NOT connected to the amplifier via cable, the system switches automatically to the wireless mode with no interruption whatsoever.

Typical configuration: Wireless connection.

**COMPONENTS:**

**WW Zeronoise Amplifier** (see page 96)

**WW Bell Helmet radio kits** (see page 108-109)

**WW Zeronoise Headsets** (see page 97)

# OMP E-RACING COCKPITS

OMP started a new exclusive partnership with Playseat®, the world's leading company in racing simulation cockpits. The new OMP e-racing GTR cockpit stands out for the integration with the HTE-R or Champ-R seats, the same FIA-homologated products developed by OMP for real-world racing. The virtual driving experience becomes even closer to the real thing, by perfectly replicating the ergonomics of GT, Touring and Rally cars.

The sim racers more focused on single-seater cars can opt for the Playseat® Formula model, successfully used by many globally renowned drivers.

All the sim rigs are fully compatible with any console, steering wheel, pedal board and simulation platform on the market.

## GTR COCKPIT **NEW**

### HTE-R seat ERO-001

The OMP e-racing GTR cockpit is built around the renowned OMP seats. These FIA-homologated seats used in real racing enable to replicate the ergonomics of GT, Touring and Rally cars.

### CHAMP-R seat ERO-002

The OMP e-racing GTR cockpit is built around the renowned OMP seats. These FIA-homologated seats used in real racing enable to replicate the ergonomics of GT, Touring and Rally cars.

## FORMULA COCKPIT

**NEW**

### ERO-003

The OMP e-racing custom Formula seat is ideal for sim racers focused on single-seater cars. It has been successfully tested by many globally renowned drivers and features a dedicated OMP colour scheme.

# MOTORSPORT CARE

The expertise of two historic companies in motorsport and care respectively, mixed together for an exclusive range of products for the cleaning and maintenance of your racing gear: OMP Motorsport Care powered by MaFra.

## MULTIPURPOSE pre-wash degreaser and stain remover

PC0-2005

- High performance specific pre-wash treat for grease and oil stains

## TERM SALE

By placing an order, the buyer accepts and unconditionally agrees with the conditions described in this document, and undertakes to follow them during the course of the business relationship with Racing Force, declaring to have read and accepted them. The buyer also agrees that Racing Force don't consider themselves bound to different conditions, except where agreed in writing in advance. The buyer accepts the terms of sale indicated below. In the event of any legal dispute, the Court of Genoa, Italy, is competent. Racing Force reserves the right to modify the terms of sales anytime, also in view of possible regulatory changes. The new Terms Of Sale will be effective starting from the date of publication on OMP Racing official website ([www.ompracing.com](http://www.ompracing.com)). For any request of clarification or complaint, contact the following email address: [info.rf@racingforce.com](mailto:info.rf@racingforce.com)

**CHARACTERISTICS AND PRICES OF PRODUCTS** The price indicated are VAT excluded. The characteristics and technical data of the items presented in this catalogue are not binding and can be changed without notice. The products' colors can also be considerably altered.

**RETURNED ITEMS - DELIVERY TIME** Racing Force is not responsible for delayed deliveries and will not pay for possible consequent damages. Returned goods will be accepted only when authorized by Racing Force, provided with regular goods return note, and carriage paid. Racing Force will charge all the costs deriving from damages on the returned goods or missing parts. Defective or not functioning items that will be returned after having been purchased will be repaired in the necessary time and will not be substituted by new ones in any way. Orders made in writing (fax, mail, e-mail, etc.) will be considered automatically confirmed and will be forwarded in accordance with the normal procedure. The goods travel at the risk of the consignee, and any damage caused during the carriage will be charged to the consignee.

**CARE AND MANTAINANCE** Before the use of any item, carefully read the labels and the user's manual, and strictly follow the instructions. Improper use or mantainance can reduce the effectiveness of the item, provoke untimely wear and increase the risk of serious or lethal injuries in case of accident or fire. Improper use or mantainance void the guarantee and relieve Racing Force from any responsibility towards the user.

## WARNING

Motorsport is an intrinsically dangerous activity, that can result in serious or lethal injuries. The items described in this catalogue provide for protection on specific parts of the body for a limited period of time in controlled test conditions, in accordance with the FIA standard specified on each item's label. No device can provide a complete protection from every injury in case of accident or fire. The user, at the time when he uses the products, relieves the manufacturer, the distributor, the owner, the employees, the agents, the sales representatives from any responsibility. It is the user's responsibility to become familiar with all available informations about the correct use and mantainance of the products. If uncertain of the correct use and mantainance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.

### DISCLAIMER

- Each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization.
- Personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same.
- Personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition.
- Products are sold to be used in legally sanctioned autosport events only, and are not intended to be used and/or installed for regular street use, as street use safety products are subject to different homologations and laws depending on the State or country.

- It is the user's responsibility to become familiar with all available informations about the correct use and mantainance of the products. If uncertain of the correct use and mantainance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.

- Every single modification or customization of the products, and every operation on them may reduce their security features. Thus, the user is responsible at his own risk for the reduction of security features caused by modification or customization.

### BY THE USE OF THESE PRODUCTS, THE USER ACKNOWLEDGES:

That each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization; that personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same; that personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition.

That the helmet is conceived and designed to reduce the risk of cranial and facial injuries only in case of impact. That no helmet can protect against any possible and foreseeable impact. That helmets are not recommended and sold for high-risk jobs such as refuelers.
